THE MISSION

HelloBaby is dedicated to bringing free, safe play spaces to underserved neighborhoods in Chicago and beyond. By providing young children and their caregivers opportunities to explore, learn, and grow, we strive to create an inclusive environment that nurtures the potential of every child, supports family well-being, and strengthens community bonds.

THE VISION

We envision a future where every child has access to safe play spaces, allowing them to explore their environment, build cognitive skills, develop social interactions, regulate emotions, and enhance physical abilities. As a result, children will start school better prepared, happier, and healthier. By empowering families and fostering early childhood development, we aim to cultivate a generation of confident, resilient, and thriving individuals who will contribute to a brighter, more prosperous future for all.

“A child’s ability to play helps determine that child’s emotional and mental development. Play is necessary”

-Debbie Frisch
